# DROPPED OBJECTS PREVENTION Harmonica Barrier

## Description

The Harmonica Barrier is excellent to use to block access to areas for maintenance or cleaning. This product is designed for indoor use and can be set straight, curved or in a circle.

The barrier is 3.85 m long with 17 articulating panels, has 2 non-marking wheels and 4 locking straps secure the barrier in closed position. In addition to being lightweight the barrier has a compact footprint of 400 mm x 600 mm for easy storage.
